

PROJECT 2

Les Sables D'Olonne

Construction of a sports complex and a versatile, modular multipurpose hall with 1,000 to 3,000 seats, featuring an arena (flexible capacity of 2,000 to 4,000 seats), a gymnastics hall (400 seats), a multi-sports hall with climbing and athletics areas, a social space, a common foyer, and all necessary ancillary facilities.

The environmental approach has been placed at the heart of the project. The building's orientation, its compactness, the performance of its envelope, the choice of facade materials that are exclusively raw and suited to the marine environment (colored concrete, raw aluminum, and glass), and the thermal inertia... *Adi vel id que et adis eseruo earupta coreperiorio conet exerro moluptate volupturit et ipsusae solorae mi, verume nonem nia pla quo mo to magnimus dio. Project Management
Les Sables d'Olonne Agglomération

Program
Construction of a sports complex and a multipurpose cultural hall

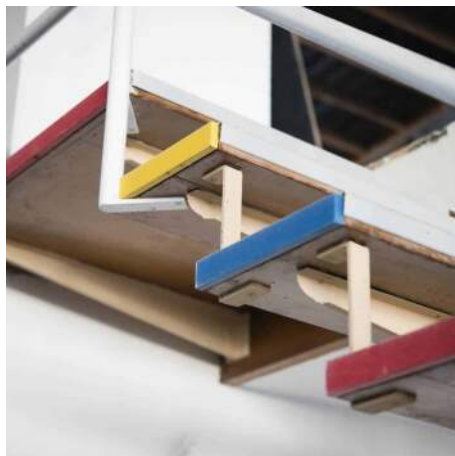

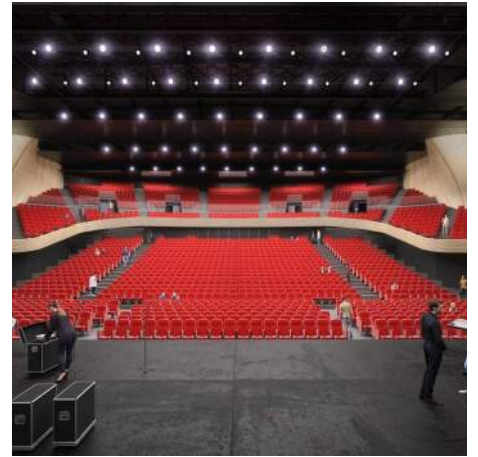

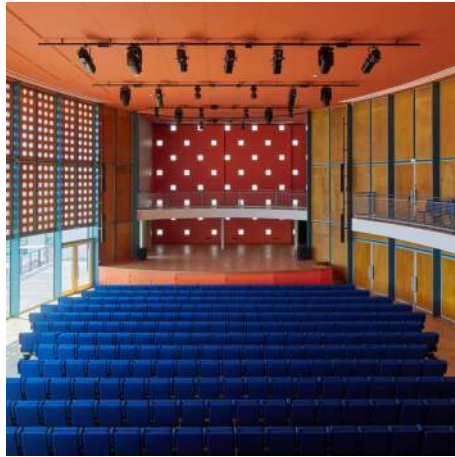

Surface
16,160 square meters

Cost of Work
€47,000,000 excluding VAT

Status
Construction underway (DET phase)
Delivery in 2025

Environmental Quality
RT 2012 -10%, Label E3C1
Compliance with Target 4, very high performance > Level B in the new standard.

Culture Sport Stadium
